TACNET

DLH supports the Navy's POR CANES (Consolidated Afloat Networks and Enterprise Services). CANES enables information warfare from and within the tactical domain. CANES provides complete infrastructure inclusive of hardware, software, processing, storage, and end user devices for the Unclassified, Coalition, Secret and SCI enclaves. CANES services include 200+ hosted applications, data transport and storage, system management, cybersecurity, email, web, chat, collaboration, voice, and video services. Hosted applications and systems inclusive of information operations, logistics, and business applications required to operate in the tactical environment.
